

Cross Country

Getting ready to run my race
The starter gun goes bang in my face
Speeding fast along the track
Gotta run fast
better not slack
People are catching up
They are really on my back
On the gravel
Along the stock bank
I'm getting puffed
But I have got to keep up a good pace
I really want to get a good place
Round the corner
Jump the bales
I want to sit down but I don't want to fail
The finish line is up ahead
I make a sprint
It's over now I am so relived
I tried my best
I didn't leave
I ran really fast
I didn't come last
